SiteAudit Analyzer

Sample One-Click Charts

SiteAudit Analyzer is a tool used for fleet analysis and charts. It works with SiteAudit OnSite, Hosted and Compact software. Once Analyzer is launched a user can select from a set of chart templates. Each template contains multiple charts. SiteAudit templates provide ready-made analysis and charts of inventory supplies, volume and fleet health.

Use SiteAudit Analyzer for audit analysis, presentation and ongoing fleet consulting. Run Analyzer across a single customer or create a consolidated analysis and presentation across multiple customers. Use the Analyzer MS PowerPoint integration as the standard workflow for audit data analysis to sales presentation.
