**Netaphor and WS Software Announce Connector Integrating SiteAudit Data with WinServ  
Back Office Service Management System**

*Integration Provides MPS Resellers with Automated Billing, Supplies and Service Ordering*

Irvine, Calif. – 16 May, 2016 – Netaphor ([www.netaphor.com](http://www.netaphor.com)), a provider of managed print services (MPS) software and [WS Software](#) maker of WinServ service management system today announced the release of the SiteAudit WinServ Connector. The connector enables automated meter billing, supplies replenishment and service ordering for MPS partners using WinServ Service Management System and SiteAudit OnSite or Hosted tools.

SiteAudit solutions provide data collection, analysis, alerting and reporting benefits to MPS partners and end users. These tools enable the most fully-featured and accurate auditing and fleet management MPS programs available. The SiteAudit solution portfolio meets the requirements for small to enterprise environments as well as those environments which are security sensitive, such as financial institutions and governmental organizations.

The SiteAudit WinServ Connector utilizes SiteAudit's BackOffice Services capabilities which allows SiteAudit data to integrate seamlessly with invoicing, ERP, help desk and other applications. "The WinServ Connector is an incredible opportunity for partners to leverage SiteAudit data into a complete back-office solution, managing their billing, supplies and service response," said Brian Anderson, Netaphor Vice President of Sales. "Netaphor provides an amazing solution for collecting and making sense of large device data sets. This in combination with WinServ's well-established and long-tested back-office capabilities, creates a modern yet robust business platform." said Ronny Fransson, WS Software CEO.

**Key Connector Features:**

1. Easily creates invoices from meters collected from managed devices
2. Automatically received SiteAudit alerts and creates supply orders
3. Support for high yield/low yield supply recommendations
4. Minimizes downtime by converting error alerts to automatic field dispatches
5. New devices automatically import once a new device is connected

Connector pricing details available by contacting [info@wssoftware.se](mailto:info@wssoftware.se)

## **About Netaphor**

Founded in 1997 and headquartered in Irvine, Calif., Netaphor Software, Inc. develops and sells software for managed print services. The company's flagship product, SiteAudit, is the industry's first software suite to identify, reduce and manage printer costs, saving organizations up to 30 percent during the printer asset lifecycle. SiteAudit customers include organizations in all industries including the Jacobs Engineering and Children's Hospital of Philadelphia.

## **About WS Software**

WS Software AB was founded in 1984. Since 1990 we have been at the forefront as a supplier of software for the service management industry.
