

# SiteAudit Assessment Solutions

- Data Collection
- TCO Analysis
- Floor Mapping
- Report & Presentation

## One Stop for all your Assessment needs

Netaphor SiteAudit provides a complete set of assessment tools for all needs. From small business to enterprise, general office to secure environments Netaphor offers the tools to collect, analyze and present. Use the floor mapping and TCO tools to show an optimal future state. It is an integrated solution in one easy to use tool set.

### Solution for any Environment

SiteAudit OnSite or Hosted collects information for full assessments. Use OnSite for small to large environments like government and banking where data must stay secure and inside the firewall. For cloud convenience Hosted provides remote deployment, setup, analysis and reporting. And if IT approval is a hassle and travel costs are high use SiteAudit Compact to perform quick and easy snapshots without installing any software. Compact utilizes Microsoft's click once technology.

### Current and Future State TCO

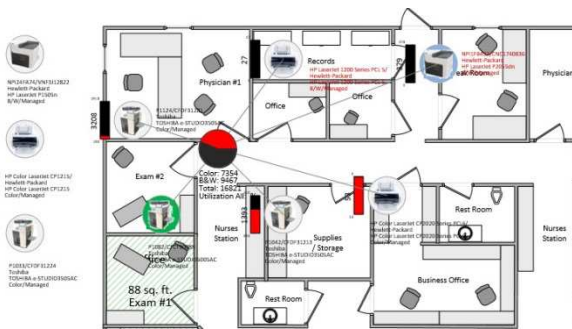

Use SiteAudit Analyzer TCO and Visualizer tools to compare the current fleet state with a future state proposal. Compare cost, volume and inventory and map devices to the current and future state physical locations.

### Floor Mapping

Visualize the physical fleet using SiteAudit Visualizer during customer assessment walk-throughs. Drag and drop devices to floor maps, then analyze and integrate the TCO future state proposal to show the physical future state plan.

### Integrated Reporting and Presentation

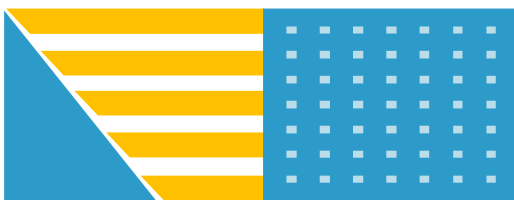

The SiteAudit viewer and Analyzer produces tables and graphs that link into the integrated assessment Word document and PowerPoint presentation. These links make proposal creation easy and simple to do. Partners can customize the assessment documents to their look and style.

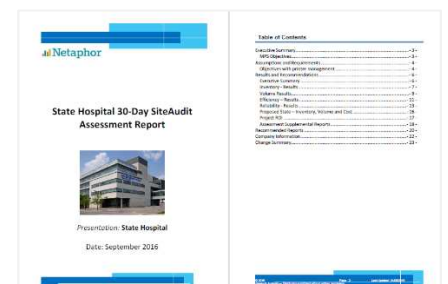

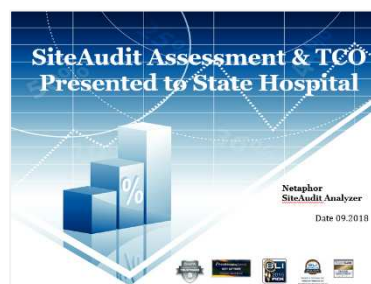

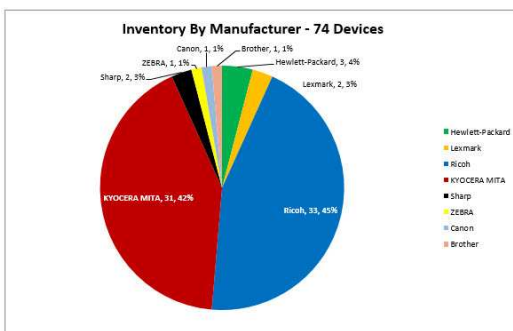

SiteAudit Visualizer – floor mapping

Analyzer – supplies analysis

Analyzer – inventory chart

Deliver to customers a complete assessment as a Microsoft Word document and PowerPoint presentation. Document links make it simple and quick to do.

**SiteAudit Analyzer Platforms**

Windows 10; Windows Server 2012/R2/2016

**Prerequisites**

Microsoft Excel 2010/2013/2016

SiteAudit Analyzer License

**SiteAudit Visualizer Platforms**

Windows 10; Windows Server 2012/R2/2016

**Prerequisites**

Microsoft Visio Profession or Premium Editions 2010/2013/2016

SiteAudit Visualizer License

User Capabilities	Visualizer	Analyzer	SiteAudit

Audit Presentation	✗	✓	✗

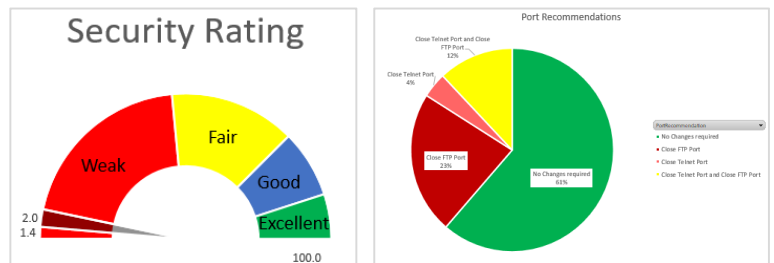

*Compare the features of SiteAudit audit, Analyzer and Visualizer tools*

**Training and Support Programs**

- Ramp-up program is offered to get partners a quick start to using the tools
- On premise and remote training programs focusing on case study and best practices
- Assessment reporting and presentation services available to expand partner resources
- Technical support and portal access to program members

**SiteAudit assessment presentation integrates TCO with fleet analysis with a click of a button.**

*Analyzer – security rating measures device vulnerability*

SiteAudit Analyzer security risk assessment report examines customer inventory and measures device vulnerabilities. A rating is provided with specific recommendations to close security holes. Threat assessment and security protection are critical requirements for most organizations and SiteAudit assessment tools uniquely deliver this capability.
