

# At-A-Glance - Customer Success Dashboard

Netaphor SiteAudit™ Power BI Sales Analysis Dashboards

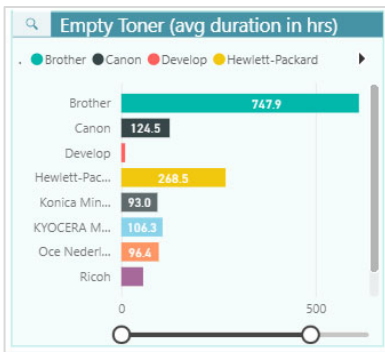

## Quick customer insights into critical metrics

The At-A-Glance dashboard provides fast, insightful information about fleet assets, projected volumes, supplies issues and security threats.

Start with high level analysis to identify key issues, then drill down for more data and analysis and finally view device specific information using the powerful drill through capabilities. To learn more go to: [www.netaphor.com](http://www.netaphor.com)

SiteAudit At-A-Glance dashboard visualizes key fleet metrics to quickly understand customer's performance

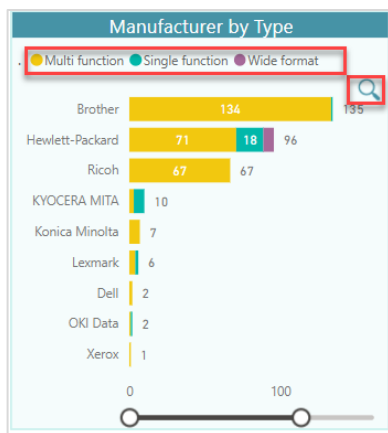

Supplies: Empty toner duration

## What you see with At-A-Glance

- Supplies issues that reduce printing capacity
- Inventory mix by make & model, type, and age
- Projected volumes to determine best fleet mix
- Security issues related vulnerable open ports
- Top 10 utilized devices to identify critical devices
- Mapping identifies where devices are located

Supplies At-A-Glance - Empty Toner explains the number of hours or duration that toner has been empty, 0%. When a toner has no supply level (empty) the device cannot print. This contributes to productivity loss and increase overall costs.

Inventory: Make composition

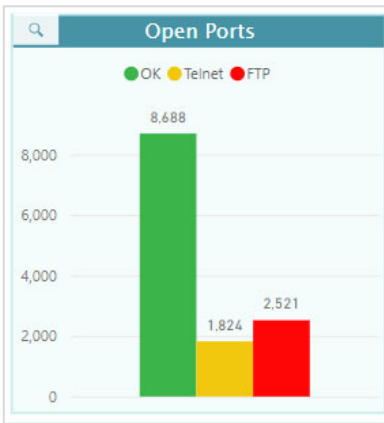

Customer	Manufacturer	Model	Device Age (hrs)	Serial Number	Device Type	# of Devices
	Hewlett-Packard	DesignJet 100	13.9	-	Single Function	1

Inventory: Complete device list, summary by make and type

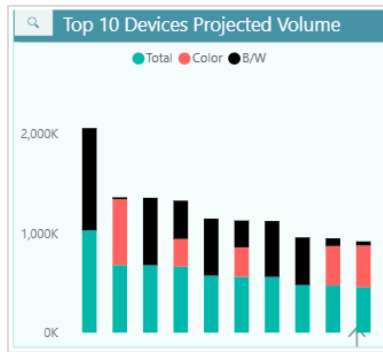

Inventory At-A-Glance - Manufacturer by Type displays the number of devices each manufacturer has and its device type mix: Multifunction, single function & wide format.

# SiteAudit At-A-Glance Dashboard

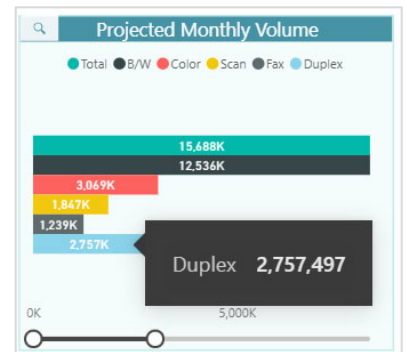

Visualizing customer performance metrics to reach optimum fleet goals

Security: Open ports vulnerability

Utilization: Top 10 utilized devices

Volume: Projected monthly volume

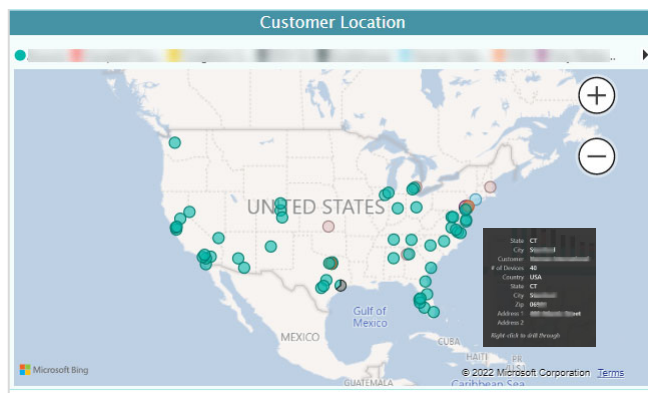

**Security At-A-Glance** - Threats due to open ports can lead to Denial of Service (DoS), sensitive information disclosure, remote code executions (firmware) attacks and other threats.

**Utilization At-A-Glance** - Top 10 Devices by Projected Annual Volume identifies the devices that get the highest use.

**Volume At-A-Glance** - Projected Monthly Volume identifies the amount the customer is expected to produce monthly based on the current volume.

## At-A-Glance dashboard customer location

The Customer Location visual adds a geographic context to the analysis. The customer can see by location the number of devices present and an inventory list of those devices.

Bing maps give a geographic visual of fleet management

Right-click on a location and drill through and get an inventory list

State	City	Count
CT	Stamford	48
USA	Stamford	48
