

SiteAudit PBI Dashboard

Netaphor SiteAudit™ Power BI Operations & Analysis Dashboard

Smart Dashboard for Fleet Management

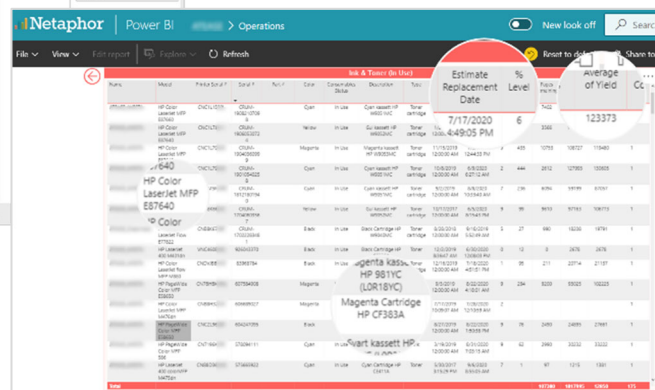

SiteAudit PBI Dashboard is driven by Microsoft's Power BI platform to visualize live data to analyze and manage fleets. This enables fleet managers to maximize SiteAudit's big-data collection capability and quickly view, understand, and then decide on fleet management actions.

Fleet managers can securely access charts and maps and at-a-glance identify critical issues such as supplies levels and use Drill Through to see a complete device status to know when and which supplies require replenishment. Both customer and partner facing dashboards are offered.

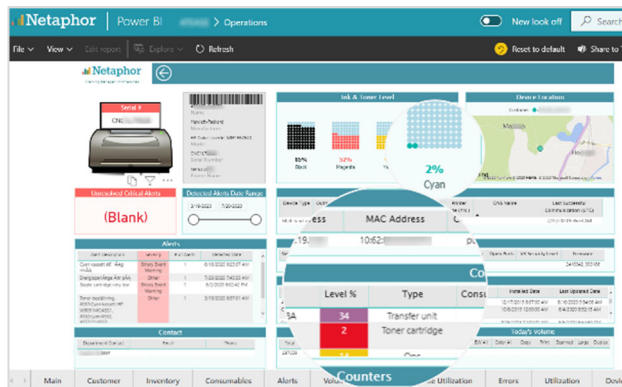

www.netaphor.com

SiteAudit PBI Dashboard creates a new visualization standard for fleet analysis and operations management. See critical supplies issues, analyze alerts, or check inventory with a map view.

Drill Through capabilities to solve specific device issues

SiteAudit PBI Dashboard utilizes Drill Through to allow topline overview down to the single device detail. Example: use the map to drill through to an exact location and device and the specific supply requiring replenishment.

SiteAudit Power BI Dashboard Hosted Solution

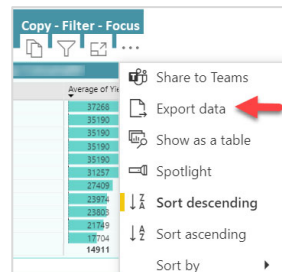

Map Visualization

Drill Through to customer's street level location. As an example see the fleet inventory at a specific location, then Drill Through to the device details.

Key Dashboard Capabilities

- Manage fleet operations from inventory to supplies
- Analyze fleet data from supplies to alerts
- Filter data and select specific time periods for analysis
- Drill Through from fleet overview to device level
- Visualize customer locations with Bing Maps
- Manage single or multiple customers in a single view
- Access protected by Azure AD login
- Export charts to Excel .xlsx or .csv, PowerPoint and PDF

Export Data

1	2	3	4
Applied filters: Sample (UTC) is on or after 11/27/2018 12:00:00			
1	Manufacturer	Device Status	Alert Disabled
2	Force Matic	Warning	
3	Mountit Picking	Ready	17
4	Mountit Picking	Unreachable	56
5	Force Matic	Error	2
6	Force Matic	Ready	3
7	Caron	Warning	1
8	Mountit Picking	Error	2
9	Mountit Picking	Warning	2
10	Mountit Picking	Error	2
11	Mountit Picking	Warning	2
12	Caron	Ready	1
13	Lenmark	Ready	1
14	Lenmark	Warning	1
15	Lenmark	Warning	1

Export data into Excel files. Check filter settings. Copy charts or enhance display with Focus Mode.
